Project		Project Overview	Recommended
Sponsor	Project Title		Award
		New developments in Cherry Creek will	\$181,940
		result in additional 15,000 workers to	
		the area. Due to reduced parking	
		requirements, project sponsors propose	
		offering an area-wide TDM program to	
Too a see a set a tila se	Developer TDM	help workers use alternatives to driving	
Transportation	and Tenant	alone.	
Solutions	Engagement	This research project propess to	\$157,301
		This research project proposes to evaluate strategies for providing	\$157,501
		multimodal solutions at the 61st and	
		Pena and 40 <sup>th</sup> and Airport RTD station.	
		In addition to studying the Pena	
		Boulevard corridor to identify strategies	
Northeast	Northeast	to reduce SOV trips, sponsors will also	
Transportation	Denver Mobility	look into long-term funding options to	
Connections	Hub Study	support mobility.	
		To support a new development in the	\$66,310
		northwest region, sponsors propose	
		developing a site-specific, linguistically	
	Community-	and culturally relevant education	
	Based	campaign highlighting non-solo driving	
	Strategies to	options to residents in a new complex	
Commuting	Support TDM	next to US 36 and Broomfield RTD	
Commuting Solutions	Implementation in Broomfield	stations.	
3014110113	III BIOOIIIICIA	Project sponsors propose launching an	\$103,487
	SB-161	education and outreach project to	φ103, 10 <i>1</i>
	Residential	promote neighborhood EcoPass among	
Boulder	EcoPass	residents of qualifying residential	
Chamber	Promotion and	developments. The program will support
