Finance and Budget Committee

Resolution No. 46, 2025

A resolution authorizing the Executive Director to negotiate and execute a contract with the City of Longmont to increase staff capacity by creating two new positions focused on reducing building-related climate pollution emissions through local building policy in an amount not to exceed \$900,000 with a term ending September 14, 2029.

Whereas, DRCOG received a \$199.7 million grant from the U.S. Environmental Protection Agency's (EPA) Climate Pollution Reduction Grant program to implement a regional building decarbonization initiative; and

Whereas, within this larger program lies the Building Policy Collaborative (BPC), includes \$34,800,000 USD to support jurisdictions by providing subaward funding for new staff capacity, providing training and professional development related to decarbonization policies, enhancements to permitting processes, technical assistance on policy development and adoption, community engagement support, and any other activities designed to reduce climate pollution from the building sector; and

Whereas, subawards will be allocated through two rounds, with Round 1 allocating \$34.8 million as formula funds across all jurisdictions in the DRCOG area, which opened June 2, 2025 and will close October 31, 2025 at 5pm Mountain time; and

Whereas, Longmont submitted their subaward application to use their allotted formula amounts to support two new staff positions to advance building-related climate goals by implementing strong energy codes, educating stakeholders, and ensuring compliance through plan reviews and inspections; and

Whereas, these subawards match the eligibility criteria of the EPA grant and will advance Decarbonize DRCOG's goals of reducing greenhouse gas reduction goals.

Now, therefore, be it resolved that the Finance and Budget Committee authorizes the Executive Director to negotiate and execute a contract with the City of Longmont to increase staff capacity by creating two new positions focused on reducing building-related climate pollution emissions through local building policy in an amount not to exceed \$900,000 with a term ending September 14, 2029.

Resolved, passed, and adopted this 3rd day of September, 2025 at Denver, Colorado.

Jeslin Shahrezaei, Chair
Finance and Budget Committee
Denver Regional Council of Governments

ATTEST:

Douglas W. Rex, Executive Director
