**Call to Order**

Chair Susie Strife called the meeting to order at 10:00 a.m.

**Public Comment**

There was no public comment.

**November 4, 2025 Power Ahead Colorado Technical Committee Summary**

The summary was accepted.

## **Discussion Item**

### *Innovation Pilot Program Updates*

Mac Prather, Incentives, Advising and Low-Income Communities Program Manager, introduced Desmond Kirwan from the Vermont Energy Investment Corporation, commonly known as VEIC, who discussed that DRCOG's \$6 million Innovation Pilot Grant Program will award average subgrants of \$200,000 to support community-driven innovations and small business-led projects. The goals are to:

- Demonstrate scalable solutions to persistent market barriers.
- Inform decarbonization decision-making with public data, analysis, and case studies.
- Support entrepreneurial approaches and underserved communities in adopting clean technologies.

The committee was then invited to participate in breakout rooms where open and frank discussion and feedback were had to help inform grant criteria and program design direction.

## **Administrative Items**

### *Member Comment/Other Matters*

Robert Spotts took the opportunity to note that the next five months will be critical for PACO, the framework for the three grant programs is coming into formation, and the final iterations of those programs will be decided upon. This committee will be integral to making this program really find its feet and hit the ground running.

Next Meeting – February 3, 2026

## **Adjournment**

There were no additional comments, and the meeting adjourned at 10:56 a.m.
