

Transportation Advisory Committee

Meeting date: February 23, 2026

Agenda Item #:6 (Attachment D)

Transportation Improvement Program Policy Document Draft Edits

Agenda item type: Informational Briefing

Summary

Discussion regarding the first group of anticipated edits to the existing TIP Policy document.

Background

The next four-year TIP will cover federal Fiscal Years 2029-2032. As discussed at the January TAC meeting, the first major step in the development process is to amend the existing [Policies for TIP Program Development](#) document. During that discussion, staff outlined the document edits as either minor or major changes.

- Minor: Comments, updates and/or changes that may not need stakeholder discussion until later in the amendment process (Fall 2026). These types of changes will automatically be included within the draft amendment for eventual review and action.
- Major: Changes identified by staff that require further discussion, review and recommendation by TAC before placing them into the draft amendment and are outlined in the top section of Attachment 1.

The February 23 committee discussion will focus on the “minor” changes staff have suggested to date. These are included within Attachment 2 and are in track-changes, so the edits are easy to locate. Some edits for the document, including final document formatting, items waiting for RTP adoption and items identified to be discussed at a future TAC or TIP Subcommittee meeting, have not been included yet and will be shown later this year when the entire document is brought back for review and action.

Attachment 3 lists edits staff feel are important enough to highlight, beyond typical wordsmithing and other minor edits. These changes are anticipated to be included in the draft amendment (refer to Attachment 2), pending any future discussion. The next opportunity to view all the document edits (the edits currently included in Attachment 2, plus others yet to be discussed) will be later in 2026 when the entire draft document is brought back for further discussion and eventual action.

Action by others

None.

Previous discussion/action

[January 26, 2026 TAC discussion](#)

Recommendation

None.

Attachment(s)

1. Fiscal Year 2029-2032 TIP Development Schedule.
2. Draft edits to existing TIP Policy document to date.
3. High level amendment edits to the TIP Policy document.
